## **OPERATING AND FINANCIAL REVIEW**

### **Operations**

During the half year, Equatorial continued to advance its existing mineral resource assets in Africa as well as searching for new opportunities in the resources sector which have the potential to build shareholder wealth.

### **Badondo Iron Project**

Equatorial is the 100% owner of the Badondo Iron Project (“**Badondo**”), which is held by Equatorial’s 100% owned subsidiary Congo Mining Exploration Ltd SARL. Badondo is a potentially large-scale iron project in the northwest region of the Republic of Congo, within a regional cluster of world-class iron ore exploration projects including Sundance Resources Limited’s Mbalam-Nabebeba project.

Badondo has a large direct shipping ore hematite exploration target and assay results received to-date have confirmed the presence of thick high grade iron mineralisation at, and close to, surface.

During the half year, the Company lodged a Mining Licence Application (“**MLA**”) for Badondo. Under the terms of the Republic of Congo Mining Code, exploration licences are granted for an initial 3-year period and are then capable of being renewed, upon application, for two further periods of two years. The Badondo Exploration Licence was renewed for the second time by Government Decree dated 7 December 2015. Equatorial is now undertaking the process to upgrade the Company’s tenure to a 25-year Mining Licence. According to the Republic of Congo Mining Code, an MLA requires the submission of a feasibility study, an environmental and social impact assessment, community development plans, and the completion of technical reviews by relevant government agencies. On 22 November 2016, Equatorial lodged the MLA for Badondo based on completed exploration work in order to position the Company with a 25 year right to mine at the project. Equatorial will continue to work with the Government with the aim of securing the Badondo Mining Licence during the 2017 calendar year.

Equatorial has plans for further exploration work at Badondo, which may include a follow-up drilling program. Further exploration and development programs at Badondo will be considered by the Company in the context of the current iron ore price and the progress of regional infrastructure developments.

In addition, Equatorial is continuing to investigate regional opportunities for partnership and cooperation with strategic investors at a project level, in order to maximise the value of Badondo for shareholders.

### **Other Projects**

Equatorial retains a 2% royalty on all future production from Mayoko-Moussondji Iron Project, located in the southwest region of the Republic of Congo, calculated on the value of all sales of ore extracted, produced, sold or otherwise disposed of from the project.

In addition to maximising the value of existing assets, the Company continues to identify and evaluate resource projects which have the potential to build shareholder value. During the half year, Equatorial assessed a number of new business opportunities and will make announcements to the market as appropriate should an acquisition occur.

## OPERATING AND FINANCIAL REVIEW (continued)

### Operating Results

The net loss of the Consolidated Entity for the half year ended 31 December 2016 was \$136,684 (31 December 2015: \$1,218,996). This result is partly attributable to business development expenses of \$365,983 (31 December 2015: \$1,272,162) incurred in respect of business development activities conducted by the Group, including costs relating to international travel, site visits, due diligence, technical reviews, legal fees and overhead expenses in relation to its assessment during the half year of various new business opportunities in the resources sector.

### Financial Position

At 31 December 2016, the Company had cash reserves of \$40.8 million (30 June 2016: \$40.4 million) and no debt, placing the Company in a strong financial position to conduct its current activities and to pursue new business development opportunities. At 31 December 2016, the Company had net assets of \$43.2 million (30 June 2016: \$43.3 million).

Accordingly, this report is to be read in conjunction with the annual report of Equatorial Resources Limited for the year ended 30 June 2016 and any public announcements made by Equatorial Resources Limited and its controlled entities during the interim reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

### (a) Basis of Preparation

The interim financial report has been prepared on a historical cost basis. The financial report is presented in Australian dollars, unless otherwise stated.

The interim financial statements have been prepared on a going concern basis that contemplates the continuity of normal business activities and the realisation of assets and the extinguishment of liabilities in the ordinary course of business.

### (b) Significant Accounting Policies

The accounting policies and methods of computation adopted in the preparation of the interim financial report are consistent with those adopted and disclosed in the Company's annual financial report for the year ended 30 June 2016, other than as detailed below.

In the current period, the Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to its operations and effective from 1 July 2016.

AASB 8 *Operating Segments*, requires operating segments to be identified on the basis of internal reports about components of the Consolidated Entity that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance.

The Consolidated Entity operates in one segment, being mineral exploration. This is the basis on which internal reports are provided to the Directors for assessing performance and determining the allocation of resources within the Consolidated Entity.

## Review report to the members of Equatorial Resources Limited

### Report on the half-year financial report

We have reviewed the accompanying half-year financial report of Equatorial Resources Limited, which comprises the consolidated statement of financial position as at 31 December 2016, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

### Directors' responsibility for the half-year financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

### Auditor's responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2016 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Equatorial Resources Limited and the entities it controlled during the half-year, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the Directors' Report.

## Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Equatorial Resources Limited is not in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2016 and of its performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
