

SEPTEMBER 2018 QUARTERLY REPORT

Equatorial Resources Limited ("**Equatorial**" or "**Company**") is presents its quarterly report for the period ending 30 September 2018. Highlights during the quarter include:

- Continued to progress a mining licence application lodged for the Company's 100%-owned and potentially large-scale Badondo Iron Project ("**Badondo**") located in the northwest region of the Republic of Congo.
- Badondo is located within a regional cluster of world-class iron ore exploration projects including Sundance Resources Ltd's Mbalam-Nabeba project, Core Mining's Avima project, and the Belinga project in Gabon.
- Badondo has a large direct shipping ore hematite exploration target and assay results received to-date have confirmed the presence of thick high grade iron mineralisation at, and close to, surface.
- Plans for further exploration and development activity at Badondo are being considered by Equatorial in the context of the current iron ore price and the progress of regional infrastructure developments.
- In addition, Equatorial is continuing to investigate regional opportunities for partnership and co-operation with strategic investors at a project level, in order to maximise the value of Badondo for shareholders.
- Equatorial also retains a 2% royalty on all future production from the Mayoko-Moussondji Iron Project, located in the southwest region of the Republic of Congo, following its sale to Midus Global Limited.
- Equatorial is in a strong financial position with significant cash reserves and no debt. At 30 September 2018 the Company had cash reserves of A\$40 million.
- Equatorial is focused on creating value from Badondo in addition to identifying and evaluating new opportunities in the resources sector which have the potential to build shareholder value.

Badondo Iron Project

Equatorial is the 100% owner of the Badondo Iron Project, which is held by Equatorial's 100% owned subsidiary Congo Mining Exploration Ltd SARL. Badondo is a potentially large-scale iron project in the northwest region of the Republic of Congo ("ROC"), within a regional cluster of world-class iron ore exploration projects including Sundance Resources Limited's Mbalam-Nabeba project.

Badondo has a large direct shipping ore hematite Exploration Target and assay results received to-date have confirmed the presence of thick high grade iron mineralisation at, and close to, surface.

In November 2016, the Company lodged a Mining Licence Application ("MLA") for Badondo. Under the terms of the ROC Mining Code, exploration licences are granted for an initial 3 year period and are then capable of being renewed, upon application, for two further periods of two years. The Badondo Exploration Licence was renewed for the second time by Government Decree dated 7 December 2015. According to the ROC Mining Code, if an exploration licence expires before a decision is made by the mining administration in regards to a MLA in respect of that exploration licence, then the validity of the exploration licence shall be extended. On 22 November 2016, Equatorial lodged the MLA for Badondo based on completed exploration work in order to position the Company with a 25 year right to mine at the project. During the quarter, Equatorial continued to work with the Government with the aim of securing the Badondo Mining Licence.

Equatorial has plans for further exploration work at Badondo, which may include a follow-up drilling program. Further exploration and development programs at Badondo will be considered by the Company in the context of the current iron ore price and the progress of regional infrastructure developments.

In addition, Equatorial is continuing to investigate regional opportunities for partnership and cooperation with strategic investors at a project level, in order to maximise the value of Badondo for shareholders.

Other Projects

Equatorial retains a 2% royalty on all future production from Mayoko-Moussondji, calculated on the value of all sales of ore extracted, produced, sold or otherwise disposed of from the project.

Corporate

Equatorial is in a strong financial position with A\$40.0 million at 30 September 2018.

In addition to maximising the value of existing assets, the Company continues to identify and evaluate resource projects which have the potential to build shareholder value. Equatorial has assessed a number of new business opportunities and will make announcements to the market as appropriate should an acquisition occur.

Tenement Information

As at 30 September 2018, the Company has an interest in the following mining and exploration tenements:

Project Name	Tenement Type	Tenement Number	% Interest	Status
Badondo Iron Project	Exploration Licence	Decree No. 2015-984	100%	Granted*

* Equatorial has applied for a Mining Licence for Badondo. According to the ROC Mining Code, if an Exploration Licence expires before a decision is made by the mining administration in regards to a Mining Licence application, then the validity of the Exploration Licence is automatically extended.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity that wishes to disclose additional information is encouraged to do so, in a note or notes included in or attached to this report.
2. If this quarterly report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
